To Whom It May Concern:

As a Senior Pastor and Christian School Administrator, as well as being a homeowner, there are many times that we need competent professional assistance in repairing and or restoring **church, school or parsonage** facilities. Several years ago a school administrator introduced me to **Mr. Corky Randolph**, his wife, Dorothy and some of their family. I was able to contract with their company "**All Star**" to do considerable repair and restoration on our church and school facility roofs. Several other repair items were added to the contract. They did a very good job for us. **Our Official Board was very pleased**. On a later occasion, after another hailstorm, we asked them to return for additional repair and restoration. Once again, they saved us money and did a very fine job.

Corky has served the Lord in times past in youth camp ministry, pastoral ministry and school ministry. **He has a unique understanding of the problems and needs of the local church and particularly feels called to help Pastor's and Board Members** maintain, repair and restore God's property.

Because of my knowledge of Corky's ongoing local church commitments, his love for Pastor's and congregations, as well as his professional knowledge and ability to improve, update, and restore church and school facilities, **I am happy to be a job reference for him**. I consider Corky to be a good man of God applying Bible principles to his family life, his church life and certainly his business life. If you use Corky and "**All Star**", **he will serve you well**.

Blessings, Grace and Peace,

Dr. Don P. Gray, Senior Pastor and  
ECA School Administrator
