To Whom It May Concern:

All Star Roofing and Remodeling re-roofed both my personal residence and the 130 unit retirement apartments I owned, both being damaged from a hail storm in 1995. In 2000 we again had a severe hailstorm where the apartments were damaged extensively. Because of the good work Corky Randolph and his company did in 1995 I called on him not only to replace my roof, but to handle the other damage such as replacing damaged siding, air-conditioners, window screens and all other items related to the damage from the storm. Not only did he do an excellent job in the overall fix-up he was able to point out to the insurance adjuster items that the adjuster had failed to note in his original estimate of cost to repair. The adjuster fully agreed with Corky's points and accordingly increased the amount of the claim. I was very pleased and gladly recommend Corky Randolph and his company as honest and dependable. He is an expert at handling insurance claims and getting the damage from storms repaired on a timely basis. I believe the insurance companies respect his integrity. For example he refuses to inflate his bid to cover any deductible. The owner pays the deductible, period.

Sincerely,

R. E. Palm
