To Whom It May Concern,

I am James Davis the Senior Director of Physical Plant at Southwestern Assemblies of God University. About three years ago we had a major hailstorm that damaged five of our buildings. While trying to find the best company to repair the problems All Star Restoration was referred to me.

Corkey Randolph came in and helped in working with insurance adjusters to get the best settlement. All Star Restoration did high quality work in a timely manner. I really enjoyed working with an honest company who did the things that they promised when they said that they would. I would call on them again if the need arises.

Thank You,

James Davis  
Senior Director of Physical Plan
