

ST. JOHN'S LUTHERAN SCHOOL

A Christ-Centered Education Since 1885

The reason that St. John's Lutheran School choose All Start Restoration is after our May 20,2008 tornado we had looked at several people from our community and also all of the storm chasers were in town and we just did not feel like they had nothing to offer us. They just bug you and you finally just have to tell them to stop calling. We were contacted by All Star through other churches in town. Jeremy came down and looked at what damage we had and gave us an estimate. No one would even give us a estimate. Corky came down and talked to our committee and then we decided on All Star due to all that they had to offer us and they would do the work within our insurance scope. They upgrades have been just amazing at what they could do for us within our scope.

You could not have asked for better people to work with. Jeremy, John, and Steve our very professional and will do whatever it takes to make sure that the job gets done and is done write.

We also called several people off of their brochure. We ended up calling about 13 references and they had nothing to say but good things. I know that if we have another disaster or just have some reconstruction work we want to do I would certainly call All Star again.

Sincerely,

A handwritten signature in cursive script that reads "Caron Jenkins".

Caron Jenkins

House Committee of St. John's
Lutheran Church and School.
