To Whom It May Concern:

On September 23, 2005, our area of Southwest Louisiana was severely devastated by Hurricane Rita. Our church sustained damages from wind and water all throughout various areas of the complex. We learned about Allstar Restoration from our church administrative assistant who had a relative that was working for them in the New Orleans area on Hurricane Katrina's devastation. I contacted Corky Randolph and within a matter of days, we had contracted them to do the remediation and restoration along with renovations on our buildings.

We were extremely satisfied with the way that Allstar worked with us so that we could function as a church and still have the work done all at the same time. Allstar also worked well with our insurance company to provide everything that they needed. Corky and all of his supervisors and workers were the best we could have hoped for. They basically bent over backwards to please us. I would definitely recommend Allstar Restoration to anyone in need of a first-rate contractor for whatever the reason!
